# Getting my Flu vaccine

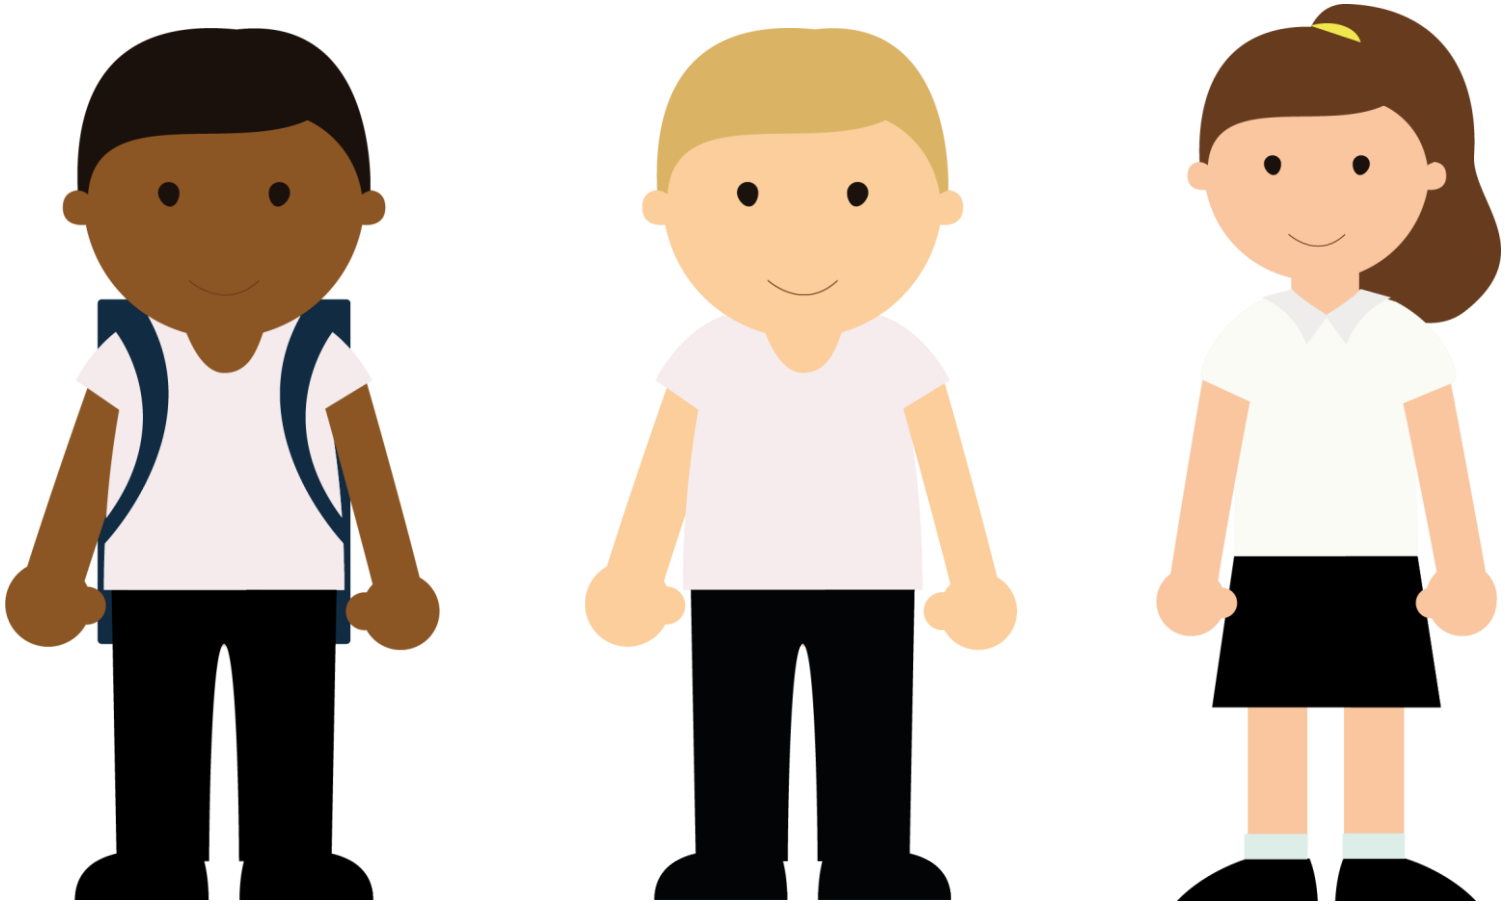

(Inactivated Flu Injection)

I will go and see the nurse

for my Flu injection.

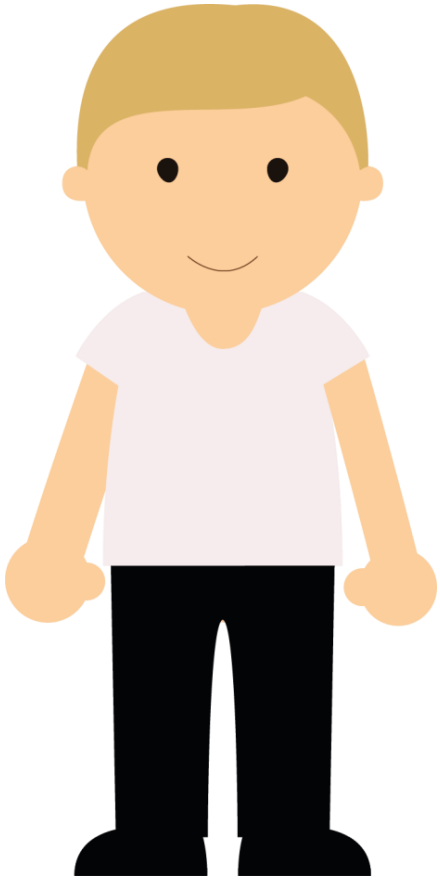

**The admin person will ask for my name and birthday.**
**I might need to wait for my turn.**

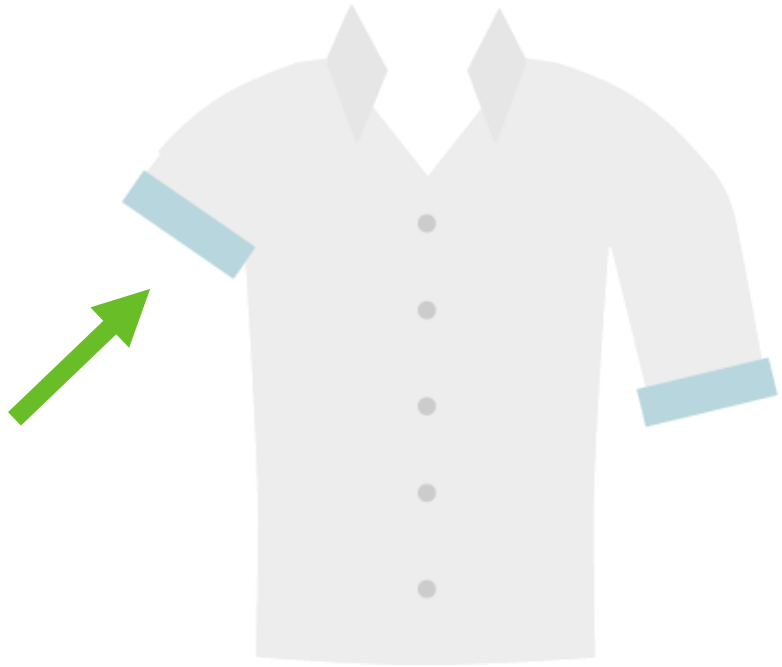

I will sit on the chair.

The nurse will ask me some questions.

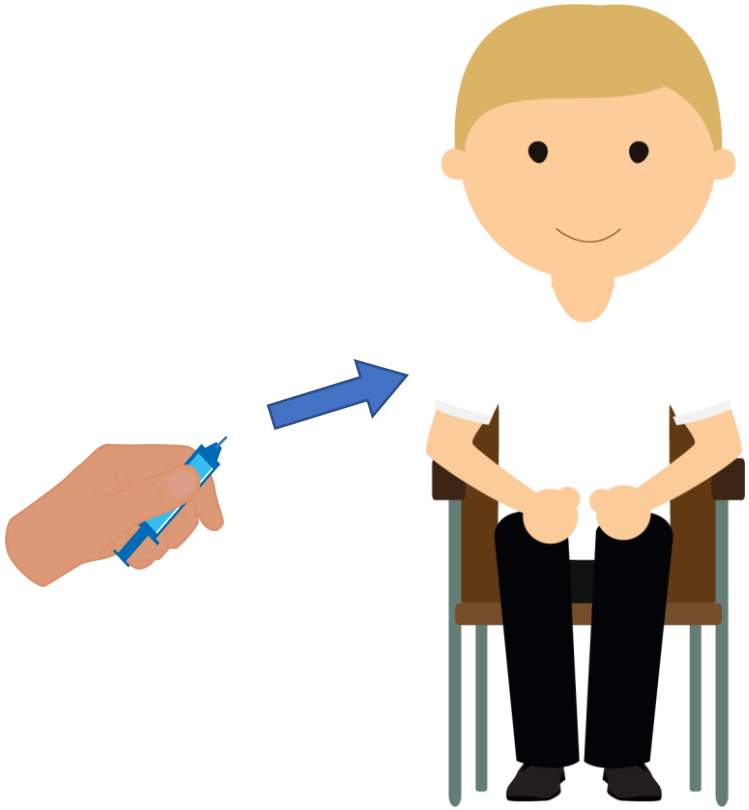

**I must be feeling well to have the flu injection.**

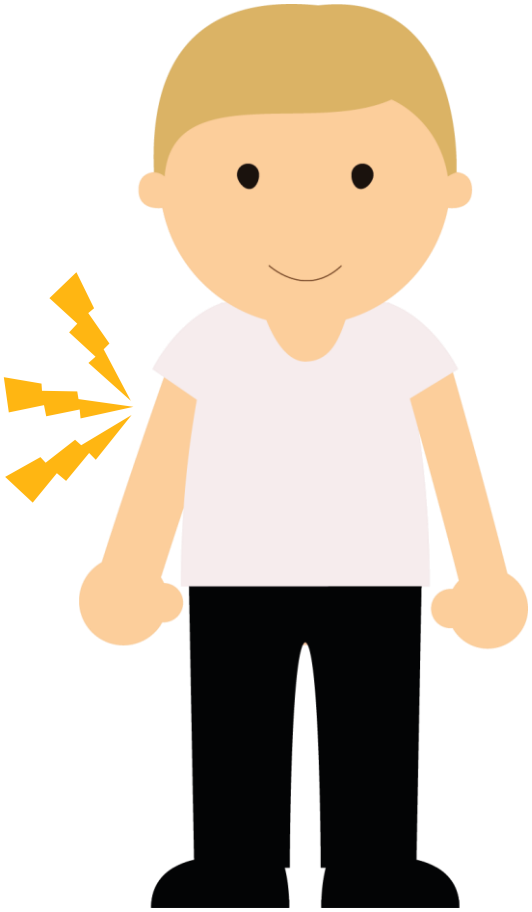

I need to roll up my sleeve.

**The nurse will give me the flu injection in the top of my arm.**

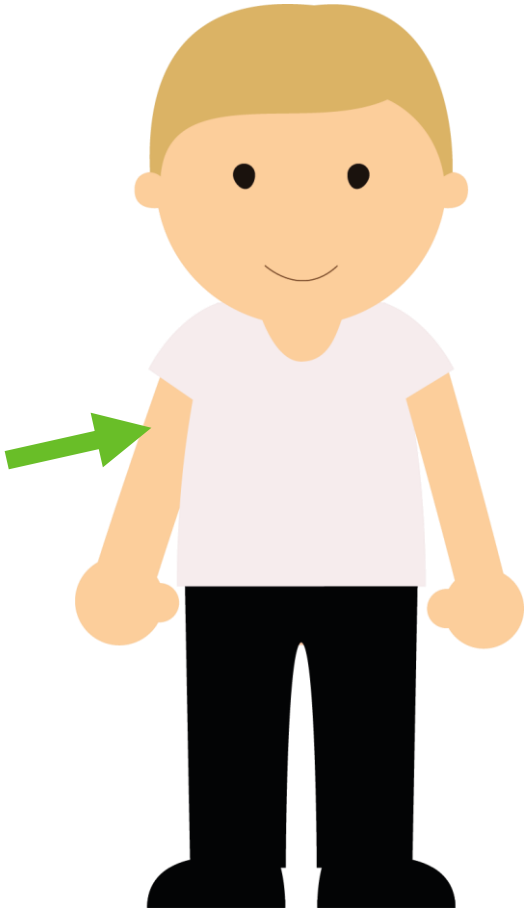

**The flu injection feels like a slight scratch.**

**The nurse** **will hold a cotton ball** **on my arm**

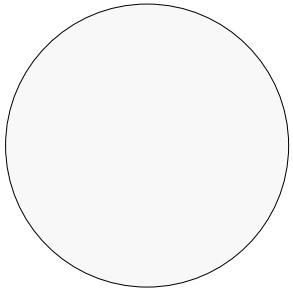

I will wait until

the nurse

tells me I can go.

**I must put the cotton ball in the orange bag.**

**All finished! Now I can go.**

**This is what some of our staff may look like on the day!**
